- Sewer treatment
- Picnic tables at every site
- Washrooms
- Private showers (coin operated)
- Community pavilion
- Grassed sites
- Community fire pits
- Telegraph Cove and ocean views
- Laundry facilities / payphones
- Trails and Ella Bay beach access
- Delightful sunsets
- Wireless Internet to all 48 sites

# Land Development

## Telegraph Point Subdivision

Telegraph Point is the newest premier address at Telegraph Cove. The first three phases of single family homesites are fully developed. Buyers have invested enthusiastically in the community, with 11 new homes completed or underway. Nearly all of the homesites have magnificent views of Johnstone Strait and the Coast Range beyond. Telegraph Cove Venture, Inc. is also developing seven more phases.

Imagine a verdant destination surrounded by clear water, clean air, magnificent trees, and an abundant sea bounty; it's the gateway to thousands of square kilometers of diverse forest ecosystems, marine parks, trails, and adventure. That destination is Telegraph Cove. Come and live amongst the splendid backdrop of this historic boardwalk community.

The first increments of our very low density 315-acre master planned community have now been completed, including a state-of-the-art water treatment plant, 2 million gallon water reservoir, sewer system, full underground utilities, and paved streets.

## Dockside 29

Dockside 29 has established itself as the premier North Island accommodation. Stunning views of the harbor enhance your stay in this ultimate over-the-water location beside our marina. Units are available for purchase.

## Future Development

Plans include cove-side retail, an upscale lodge, an executive par-3 golf course, additional commercial facilities, multi-family units, and homesites.

Our plans also include donation of land at Bauza Point to a non-profit organization (Johnstone Strait Killer Whale Interpretive Centre Society) for a world class marine mammal interpretive centre.

## Telegraph Cove Utilities

Our private utility produces and delivers first class water to our growing user base at Telegraph Point, D29, Telegraph Cove RV Park and Telegraph Cove Marina. Our use is only a fraction of available resources.

# Welcome

*Telegraph Cove* is nestled at the northern end of Johnstone Strait on the northeast coast of Vancouver Island. The Broughton Archipelago, a stunning cluster of islets forming a protected marine park, is our neighbour, as are the famed Orca rubbing beaches of Robson Bight and the 6.4 million hectare Great Bear Rainforest.

Telegraph Cove was home to a lumber mill and salmon cannery in the early 1900's. While remaining historically vibrant, this picturesque boardwalk community has gradually yielded to pleasure boaters, kayakers, sport fishermen, whale watchers and vacationers. "Telegraph Cove: One of the ten best wonders in all of Canada."

## *Telegraph Cove is the premier gateway to Vancouver Island adventure:*

Salt and fresh water fishing • kayak rental/tours • whale watching • grizzly bear excursions  
cultural tours • bird watching • diving • caving • hiking • river rafting • forestry tours  
are all yours to experience.

# Dockside 29 Suites

Telegraph Cove's over-the-water luxury suites are available for overnight rental or purchase. Each unit has a lovely view of the new marina and Johnstone Strait. Access to your car and boat is only a few feet away.
